COMPANY PROFILE

# Liberty Eagles

Security Solutions | Alexandria, Virginia

Security equipment sourcing and project planning for homes and facilities.

Contact us to confirm coverage, scope, credentials, and availability for your project.

## What we help plan

| | |
|---|---|
| **Video surveillance** | Camera coverage, viewing, recording, storage, and network fit. |
| **Access control** | Entry points, credentials, safe egress, controllers, and door hardware. |
| **Alarm and intrusion** | Detection areas, notification needs, panels, and system integration. |

## How a project moves forward

| | |
|---|---|
| **01 Discover** | Describe your property, priorities, and existing systems. |
| **02 Specify** | Review suitable equipment, compatibility, sourcing, and installation. |
| **03 Quote** | Receive a written proposal with costs and assumptions to approve. |

## For purchasing teams

Send part numbers, quantities, site information, and technical requirements. A proposal can identify equipment, installation scope, delivery, tax, and the details needing approval. Product pricing and availability are confirmed for each order.
